CITY OF EL PASO

2009 State Legislative Priorities

81st Legislative Session

Strategic Policy Statements: The City Council of the City of El Paso has met to formulate strategic policies to serve as guiding principles for the governance of the City of El Paso. Decision regarding City of El Paso positions regarding legislative matters will be weighed against these guiding principles when formulating positions.

1. **FISCAL:** The City of El Paso will seek to ensure long-term fiscal stability and sustainability of the City government.
2. **CUSTOMER SERVICE:** The City of El Paso will be a high performance, customer focused organization.
3. **CITIZEN INVOLVEMENT:** The City of El Paso will facilitate opportunities for citizens to be involved in local government.
4. **TRANSPORTATION:** The City of El Paso has a goal of becoming the least car dependent City in the Southwest.
5. **COMMUNITY DEVELOPMENT:** The City of El Paso shall become the most livable city in the United States and be recognized as an international city.
6. **ECONOMIC DEVELOPMENT:** The City of El Paso will help business create quality jobs in El Paso and revitalize targeted areas of town, thereby adding to the tax base and fostering a healthy economy.

General Principles: The City of El Paso supports legislation that enhances the City's ability to solve problems and improve the quality of life for its citizens. The City of El Paso opposes legislation that reduces the City's authority or increases the City's costs. We will work with other Cities to enhance and protect the authority of municipalities and to ensure that City taxpayers are not burdened with additional unfunded mandates.

The City of El Paso will also support legislative initiatives of community partners that enhance the educational, cultural, and infrastructure resources in our region.

This document reflects the City's adopted legislative policy as approved by City Council. The City's legislative program is organized into three categories:

I. Priority Legislative Initiatives - The City will actively seek to secure legislators to author bills for these initiatives, unless otherwise noted. The City will support and provide positive testimony for these initiatives and actively pursue passage of the bill.

II. Statement of Support or Opposition - City staff and authorized representatives will make known the City's position on these issues. Depending on the issue, staff will work to either assist in the passage of the bill or work against passage to preserve the City's interests. The important distinction between this category and the earlier category is that the City will not seek introduction of any legislation, but will vocalize the City's position in support or opposition.

III. Issues to Monitor - City staff and authorized representatives will monitor and track the development of any related legislation. Staff will seek advice and direction from the Mayor before taking an official position or taking any action to influence an outcome.

I. PRIORITY LEGISLATIVE INITIATIVES

1. TRANSPORTATION

Support the authorization of \$5 billion in Proposition 12 general obligation bonds to provide funding for highway improvement projects.

On November 6, 2007, Texas voters approved by a margin of 63 to 37 percent a constitutional amendment (Proposition 12) providing for the issuance of general obligation bonds by the Texas Transportation Commission in an amount not to exceed \$5 billion to provide funding for highway improvement projects. The bonds are to be backed from the state's general revenues rather than from gasoline taxes. The amendment was proposed by unanimous votes in both the House and Senate (S.J.R. 64). Before bonds can be issued and any funding allocated to transportation projects, authorization is required by the Texas Legislature.

Support legislation to eliminate diversions of state transportation revenues to non-transportation uses.

In 1987, state leadership began to transfer transportation funds to other areas of the state budget, with little regard for the long-term impact. Ignoring population growth projections, state government continued that practice, resulting in poor planning decisions. Over the past twenty years, more than \$10.5 billion has been transferred from transportation needs to other areas of the state budget.

Support efforts to capitalize the Texas Rail Relocation fund, authorized by voters in November 2005, to provide for relocation of existing rail traffic in metropolitan and urbanized areas.

Major urban areas in Texas are developing plans to relocate existing rail lines away from crowded urban areas in order to enhance safety, increase freight and commuter rail capacity, reduce toxic spills, improve air quality, reduce 18-wheeler truck traffic on Texas highways, and spur economic development. Funds are needed to implement these plans.

Support the Texas Department of Transportation's budget request for additional funding to maintain and clean rights of way.

Support transit exemptions for transit equipment from motor fuel tax.

Support legislation to empower metropolitan regions to enact a local option transportation tax with voter approval.

Endorse the resolution passed by the El Paso MPO on October 24, 2008 to encourage funding of transit and alternative modes of transportation from Category 2 funds.

Secure funding to study the feasibility of relocating or depressing the railroad tracks in the area of the Texas Tech/Thomason Medical Center of the Americas area.
